ABOUT

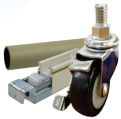

C TEK LEAN SOLUTIONS, INC.

For over 20 years, C Tek has provided lean material handling solutions across North America. With our high-quality materials and innovative design, we have worked across all industries to eliminate waste and drive efficient and safe environments for our customers.

4 LEAN MODULAR SYSTEMS TO MEET ALL OF YOUR LEAN APPLICATION NEEDS

SYSTEMS

EZ BUILD SYSTEM

- 28mm plastic resin coated pipe and connector system
- Multicolored pipe available including ESD compliant and stainless steel options
- Compatible with most 28mm pipe systems
- Pipe available in 1mm and 2mm options
- Extensive line product offering

AMERICAN PRO-PIPE SYSTEM

- 28.6mm powder coated pipe and connector system
- For robust applications and conducive to applications with SS cleaning requirements
- Well suited for environments with temperature changes
- Compatible with most 28.6mm pipe systems
- Pipe available in 19- and 14-gauge options

AL SYSTEM

- Lightweight, high corrosion resistant 28mm pipe and connector system
- Conducive to applications requiring internal movement components
- Integrates with most 28mm pipe systems for added versatility
- Easily adjustable with sliding connection points
- Clean and aesthetically pleasing look

STS SYSTEM

- Configurable with pipe and connector systems to create a strong base with a light top end, easily maneuverable cart
- Completely modular tube system for medium to heavy-duty applications
- Repurposable system to reduce production costs
- No welding required

WHY CHOOSE C TEK?

- Products available in Fully Assembled, Cut-to-Size Kits, or Components
- Modular, bolt-together systems for ease of assembly
- Unique systems to meet your application needs
- Highest quality customer service and products
- No charge design service and competitive pricing

OUR CUSTOM APPLICATIONS INCLUDE:

- Manual Assembly Workstations and Tables
- Flow Racks and Line Racks
- Heavy Duty Push Carts and Panel Carts
- Heavy Duty Work Surfaces
- Mother/Daughter Carts
- Storage Racks and Inventory Control Units
