

AL SYSTEM

LIGHTWEIGHT, ECO-FRIENDLY SYSTEM

WHY SELECT THE AL SYSTEM?

- 28mm aluminum pipe and connector system
- Lightweight and corrosion-resistant
- Easily adjustable with sliding connection points
Clean and attractive design
- Integrates with most 28mm pipe systems for added versatility
- Conducive to applications requiring internal movement components

SAFETY INNOVATION IMPROVEMENT

ENVIRONMENTALLY LEAN

Minimize material waste and cultivate a recyclable work floor

SYSTEM BENEFITS

The **AL SYSTEM** is a highly reusable aluminum system, with easy disassembly and variability of connector-and-frame combinations.

This system is 99% recyclable and conducts less electricity per use than the average non-recyclable structure. Without a need for specialized tools or devices, the **AL SYSTEM** is designed for multiple options to eliminate waste.

ELIMINATE WASTE

THE RIGHT PARTS, THE RIGHT SYSTEM

The lightweight, corrosion resistant AL System is the precise choice for applications that require a more complex design. With the most configurability of the modular systems, structural profiles built of this material have a multitude of industrial uses.
